Market Commentary

In petroleum related markets, crude rebounded a fraction today to post some small gains. Baker Hughes posted another consecutive week last Friday of adding active oil rigs. In NGLs, there seems to be a lot more chatter in regards to traders/marketers coming back to work from holiday. Marcellus rail propane is being offered in the MBTET -15's FOB origin with EDM c3 still offered around CNWY -19's for July spot gas. Respectively, WTI & Brent traded up today in the amount of 37c and 29c to close at \$43.38 & \$45.83.
