| Market Commentary |
|---|
| Oil prices fell today as US lawmakers battle out a fresh stimulus/ |
| aid package. "There's concern with the stimulus out of Washington, |
| which is critical to the oil complex and to supporting demand, |
| especially for gasoline," said John Kilduff, partner at Again Capital |
| LLC in New York. This all comes at a period when the Fed is having |
| its policy-setting panel meeting, and is expected to keep rates at |
| zero indefinitely. Also a negative for prices, U.S. consumer |
| confidence ebbed in July amid a flare-up in COVID-19 infections. |
| Brent is falling deeper into contango, indicating increased supply in |
| the near term and potentially encouraging a buildup of inventories. |
| WTI traded down \$.56 or -1.35% to close at \$41.04. Brent traded |
| down \$.16 or37% to close at \$43.25. |
