| WTI | 71.91 | -0.16 | | | |

| Market Commentary |
|---|
| Oil prices were steady today, as the market is weary over rising |
| Covid cases. Fundamentals remain overall bullish and the API is |
| forecasting a drop in crude, gasoline, and distillate inventories. U.S. |
| gasoline futures rose to their highest since October 2014 today, up |
| almost 10% over the past six days, pushing crack spreads to the |
| highest since May. "Gasoline strength represents a bullish |
| consideration across the complex as it has begun to translate to |
| stronger Brent premiums against WTI," said Jim Ritterbusch, |
| president of Ritterbusch and Associates. The Brent-WTI premium is |
| also the highest since May. US consumer confidence rose again in |
| July, now it's highest in 17 months. WTI traded down \$.16 to close |
| at \$71.91. Brent traded up \$.70 to close at \$74.50. |
