| Market Commentary |
|--|
| Oil prices came back today, fueled by inventory draws across the |
| board. Crude stocks fell by 4.8MM/bbls, vs a forecasted build of |
| 369K/bbls. Gasoline inventories fell by 1.6MM/bbls, vs a forecasted |
| build of 1.62MM/bbls. Distillate inventories fell by 900K/bbls, vs a |
| forecasted drop of 1.74MM/bbls. Product supplied hit a record of |
| 21.9MM/bpd over the past four weeks. "The data was decidedly |
| bullish hands down - everything was bullish, with inventories at their |
| lowest level in years," said Phil Flynn, analyst at Price Futures |
| Group. The Biden admin is again promising lower prices, citing |
| efforts to work with large producers to increase output or release |
| additional strategic reserves. WTI traded up \$.30 or .34% to close at |
| \$89.66. Brent traded up \$.77 or .85% to close at \$91.55. |
